

# Cover Letter & Guide to The Conscious Millennium Proofs

Anthony Joel Wing  
Independent Researcher

November 2025

This document serves as a central guide to a series of papers that provide complete mathematical proofs for the seven Millennium Prize Problems. All proofs are formally derived from first principles within the conscious field framework established in the Conscious Cosmos trilogy and its accompanying cover letter.

### The Conscious Millennium Proofs

1. **P versus NP via Conscious Field Theory**  
DOI: 10.5281/zenodo.17684771
2. **Yang-Mills Existence and Mass Gap via Conscious Field Theory**  
DOI: 10.5281/zenodo.17684740
3. **Global Existence and Smoothness of Navier-Stokes Solutions via Conscious Field Theory**  
DOI: 10.5281/zenodo.17684726
4. **Riemann Hypothesis via Conscious Field Theory**  
DOI: 10.5281/zenodo.17684651

5. **Poincaré Conjecture via Conscious Field Theory**

DOI: 10.5281/zenodo.17684531

6. **Hodge Conjecture via Conscious Field Theory**

DOI: 10.5281/zenodo.17684604

7. **Birch and Swinnerton-Dyer Conjecture via Conscious Field Theory**

DOI: 10.5281/zenodo.17684684

**This Cover Letter & Guide**

8. DOI: 10.5281/zenodo.17684908

**Related Foundational Work**

**Cover Letter & Guide to The Conscious Cosmos Trilogy and Millennium Mathematics Papers**
